

Smart • Simple • Direct

**About TRG**

Trade Risk Guaranty (TRG) was founded in 1991, specializing in providing U.S. Customs bonds to importers direct. The TRG philosophy is to provide great service, fair and consistent pricing, and innovative products for importers into the United States. Our tag-line reflects a TRG focus in acting out our philosophy since 1991: anything we do, we do Smart, Simple, and Direct.

**Our Mission Statement**

*“Committed to providing international traders the best possible option for U.S. Customs Bonds and Marine Cargo Insurance and perpetually striving to recognize and address other needs of the industry by developing related products that enhance the simplicity, safety and economics of international trading.”*

You can expect to see TRG to continue to grow and expand in the future. Wherever the U.S. international trade industry goes, TRG will be there with fresh, innovative ideas and a specific focus on making importing as smart, simple, and direct as possible.

**6,000 + Customers**

**The TRG Advantage**

TRG sets itself apart from its competitors by providing personalized customer service while avoiding the large company mentality. We know the key to success and growth for TRG is our accessibility to our customers, our consistency in pricing and procedures, and our open-minded vision to finding new ways to service our customers – primarily: Importers.

Smart ◦ Simple ◦ Direct

**TRG Bond** .com

**TRG Bond:** We provide wholesale pricing on import bonds. Our customers receive access to our Eagle Eye monitoring system, free of charge. By obtaining your import bond from TRG, you will benefit from a staff of experienced and knowledgeable administrators, underwriters, and customer service specialists to keep your bond accurate and in good standing with Customs & Border Protection.

**TRG Marine** .com

**TRG Marine:** TRG Marine specializes in selling Marine “Cargo” Insurance to importers direct rather than through customs brokers or other 3<sup>rd</sup> parties (even your own business insurance agent most likely does not have the competitive market we have due to our specialization and years of experience). Whether you already have an annual policy in place, insure shipment by shipment or self insure, we may be able to offer substantial savings with our annual policy. TRG Marine is a trade name of the Corporation for International Business.

**TRG Direct** .com

**TRG Direct:** TRG Direct is a web-based entry filing system that importers use to easily file customs entries without purchasing the services of a licensed customs broker. Implementation is extremely affordable and the savings are significant, but the control of your supply chain is often referred to as the greatest benefit. American Shipper Magazine published an article on TRG Direct highlighting that, “It’s like Turbo Tax for customs entries”.

**\*\*Importer Security Filing Module:** TRG Direct also offers importers a system to easily and affordably file their 10+2 ISF filings in-house. Many importers are choosing to file ISF direct rather than through a broker to ensure compliance and avoid the stiff monetary ISF penalties.

We would be happy to provide local and / or industry references at your request. Thank you for your interest in TRG. Please inquire for more detailed information about our services.
